VON MACKENSEN
NOW IN RETREAT

Russo-Roumanian Pressure Which Rallied After Defeat Has Surprised The Invader With its Tremendous Power.

(Associated Press Cable.)

LONDON, NOVEMBER 16.—FIELD MARSHAL VON MACKENSEN'S ARMY IN THE ROUMANIAN PROVINCE OF DOBRUDJA IS IN RETREAT, THE PETROGRAD WAR OFFICE ANNOUNCES TODAY, BURNING VILLAGES AS IT FALLS BACK.

Increasing pressure by the Russo-Roumanian army in Dobrudja, which rallied after its severe defeat by von Mackensen last month, has been in evidence for several days.

Bucharest reported a further advance yesterday toward the important Tchernavoda-Constanza railroad, which the Teutonic armies captured in their drive.

Berlin today entered a denial of the Roumanian claims, and in its report on the Dobrudja campaign chronicled only encounters between advance detachments.

Fighting in the Somme region of northern France shows little diminution in intensity, with attacks and counter attacks following swiftly.

The British advance in the Ancre region seems to have halted. London announces only artillery activity during the night.

Berlin, however, reports heavy attacks by the British yesterday, notably one on the village of Grandcourt, which is declared to have broken down.

The successes against the French scored by the Germans north of the Somme yesterday are reported by Berlin today. They consisted, according to the statement, in the capture, in house to house fighting, of the eastern section of the village of Sallisel, where the French were menacing the German positions in the St. Pierre Vaast Wood and of French trenches on the northern edge of this wood.

For their part, the French reacted against the Germans south of the Somme near Chaumes, where a German counter attack was announced yesterday to have wrested a part of the village of Pressoire from the French. The French recaptured this ground last night, Paris announced today.

BERLIN CLAIMS CONTRA

(Associated Press Dispatch.)

New York, November 16.—The invasion of Roumania is continuing successfully, Berlin announces, although increasing resistance is apparently being encountered by von Falkenhayn's forces along the Wallachian border, the tenacious resistance of the Roumanians being mentioned.

Nevertheless, progress is claimed for the Teutonic forces along the Rotherthum and Szurdok Pass road with the capture of more than 1,200 prisoners.

In Macedonia the Entente Allies are winning further successes in their campaign for Monastir.

In flanking movements on the east they have advanced far into the Cerna River bend region, to within about ten miles of the town, forcing the German-Bulgarian forces back and menacing the lines of the Teutonic allies on the plain to the south where the French and Russians are making substantial progress, now being re-

ported by Paris as within four miles of Monastir.

The Germans and Bulgarians admit withdrawal in the Cerna river region.

PROHIBS ACTIVE
FOR NEXT YEAR

(Associated Press Dispatch.)

Cincinnati, November 16.—"Sentiment is now being canvassed in Cincinnati," said Dr. I. D. Jones today, in referring to a meeting of the trustees of the Ohio Anti-Saloon league, called for Columbus on January 16, to discuss whether to submit the Prohibition amendment at the November 1917 election. Dr. Jones said:

"Personally, I am in favor of submitting an amendment next fall and was in favor of its submission this fall.

"We were held off by people who declared it would 'never do in the world, don'tcherknow,' to mix up the liquor traffic with the presidency."

LABOR WILL
CONSIDER

Migration of Southern Negroes to the Forefront.

(Associated Press Dispatch.)

Baltimore, Md., November 16.—The migration of southern negroes to northern labor centers was brought to the attention of the convention of the American Federation of Labor today, when the Committee on organization favorably reported the resolution designed to eliminate what was characterized as a menace to the workers in Northern states.

The resolution which subsequently was adopted by the convention, was framed by members of the Ohio Federation.

It recited that the investigation of such migration and importation of negroes into the state of Ohio had demonstrated to the satisfaction of labor leaders in that state that they were being brought north for the purpose of filling the places of union men demanding better conditions.

Believing that the conditions that prevailed in Ohio apply in all northern states, the president and executive council of the Federation were instructed to inaugurate a movement looking toward the organization of negroes in the Southern States.

CLAIM WOMEN
AGAINST WILSON

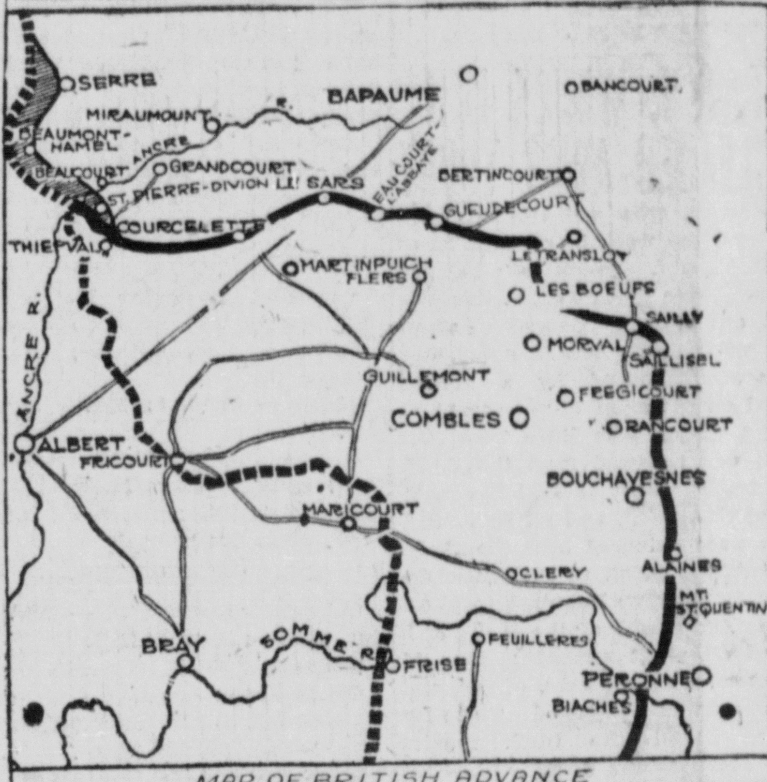

(Associated Press Dispatch.)

Washington, November 16.—Chairman Alice Paul of the Congressional Union for Woman Suffrage, in an analysis of the vote in the suffrage states, today claimed that a majority of women voters cast their ballots against President Wilson because of his position on suffrage.

Mr. Wilson's victory in ten suffrage states, Miss Paul attributed to the labor, Progressive and farmer votes.

BRITISH IN FRANCE MAKE AN ATTACK ON
PARTS OF LINE THAT WERE LONG INACTIVE

BRINGING UP BRITISH GUN

MAP OF BRITISH ADVANCE

The map reproduced herewith shows the northern part of the Somme front in France, with the gains north and south of the Ancre reported by London dispatches. The British have taken St. Pierre Divion and Beaumont-Hamel and are fighting for Beaumont and Serre.

The broken line is the allied front on July 1, when the offensive started. The black line is their front now, approximately. The shaded portion shows gains in the recent stroke.

The photograph shows a group of British soldiers bringing up one of the larger field pieces after a recent advance on the Somme front.

"After a long period of comparative inactivity, or better, perhaps, futile activity, the British have launched a major attack in an entirely new section of the Somme line," says the military expert of the New York Times.

"This section is in part the line that received the first shock of the British offense in July. At that time the British advanced beyond the village of Serre, but the Germans pivoting on their strongly fortified position at Thiepval swung back and regained most of the ground lost in this section. Now, after several months, the British have again

struck, and this time have made serious inroads in the German lines.

"When the British are able to gain good gun position north of the Ancre (and it may be that this last attack has brought them this advantage) the German line which stretches north from Beaumont-Hamel will be doubled up on short section at a time. The situation about Combles will then be duplicated. A continuation of this process and the line will then be straightened out from Arras south.

"The situation now is that with every advance north of the river not one, but two sections of the German line will be effected. If the Germans south of the Ancre can be dislodged by a flanking operation in the north, then will come a situation very much to the British liking. The salient of which Beaumont has been the apex is almost a right angle. The sides of this angle are too far apart for the guns on one side to reach to the other. Unless this can be done there is nothing necessarily weak in this form of battle line. At present there is nothing weak in the German position and will not be until the salient can be sharpened into an acute angle. As this angle is produced the length of German lines which can be reached by the British artillery increases, so that with each blow a greater front is affected. This is the principal danger to the Germans in this last attack."

CELEBRATE
WILSON'S
ELECTION

Washington Friends of President Will Celebrate Tonight in Capital of Nation.

Pennsylvania to Be Alive With Marchers.

(Associated Press Dispatch.)

Washington, November 16.—The capital will celebrate President Wilson's return to the White House with a parade along Pennsylvania Avenue tonight.

Thousands, bearing red fire torches, will form in columns at the Peace Monument and march past a stand in front of the White House for review by the President, Government officials and Democratic Party leaders. Every marcher will carry an American flag.

The President came back to Wash-

ington from his summer home at Long Branch, N. J., Sunday night, and the welcoming celebration was planned for Monday night, but campaign parades before the election had used up the country's supply of colored fire and more had to be manufactured.

The celebration is planned as a non-political tribute to the President by residents of the District of Columbia. Many organizations will march as complete bodies.

BACK TO OLD JOB

(Associated Press Dispatch.)

Washington, November 16.—Edwin F. Sweet, who resigned as Assistant Secretary of Commerce to run for governor of Michigan, and was defeated, was given a recess appointment to his former position today by President Wilson.

HENRY W. KEYES

Republican Elected Governor of New Hampshire.

GOVERNOR
FEELING
HIS WAY

Sentiment Is Being "Sounded" Before Determining on the Special Session Proposal.

(Associated Press Dispatch.)

Columbus, O., November 16.—Governor Willis was sounding sentiment today on the proposition of calling a special session of the legislature to investigate the high cost of living.

Forest Tipton, secretary to the Governor, said today it would probably be decided one way or the other the first of next week.

The Governor left today for Leipsic, to attend the "crow" banquet to be given by Putnam County politicians there tonight to defeated and successful candidates.

Frank H. Reighard, Fulton County chairman of the House Finance Committee, here today advised against a special session to investigate the high cost of living. He said the question should be made the subject of a federal investigation.

STEAMER SUNK

(Associated Press Cable.)

London, England, November 16.—The Greek steamship Barbara, of 2,831 tons gross, and the Norwegian steamship Lokken, 1,954 tons gross, are reported to have been sunk.

COUNT PROCEEDING
IN WEST VIRGINIA

(By Associated Press Dispatch.)

Charleston, W. Va., November 16.

No material changes in the unofficial election returns are shown so far by incoming canvasses of the vote of counties in West Virginia.

A slight difference of 10 to 15 votes in favor of President Wilson and John J. Cornwell, Democratic candidate for Governor, have been found in Kanawha County.

Recounts of votes in many counties will probably be asked for by Republicans and Democrats when the official results are known. The officials count of most counties will be finished by tonight.

POLISH NOVELIST
CALLED BY DEATH

Author of Quo Vadis Dies in Switzerland.

(By Associated Press Dispatch.)

New York, November 16.—Henryk Sienkiewicz, the Polish novelist, best known in this country as the author of "Quo Vadis," is dead at Vevey, Switzerland, according to a cable dispatch received here today by the Polish Victims' Relief Committee.

Sienkiewicz had devoted much of his time recently to Polish relief work and had been in frequent communication, since the European war began, with the committee here and with the national American Red Cross.

The announcement of his death came from a member of the Polish relief at Lausanne, Switzerland. The message said the novelist died suddenly in a Vevey hotel yesterday.

Born of a Lithuanian family at Okaya, Podlasia, about 74 years ago, Sienkiewicz removed to Poland because of the Russian war and was educated at the University of Warsaw.

His later travels took him to the United States and into the interior of Africa. "The Knights of the Cross" and "Children of the Soil" are two of his most widely read books.

Three Supported the Candidacy of Cox.

(Associated Press Dispatch.)

Columbus, O., November 16.—Three separate organizations supporting James M. Cox for Governor in the recent election reported campaign expenses aggregating \$33,109.85 to the Secretary of State today.

The Forward Looking Association, of Dayton, reported \$12,563.73 spent for advertising. The Independent Voters League of Cuyahoga County spent \$8,191.60, principally for advertising.

The League of the Protection and Preservation of the Workmen's Compensation Law spent \$10,780, and the Ohio Liquor League reported \$1,474.52 spent in support of Cox.

Tomorrow is the last day for candidates and committees to file expense statements.

GOVERNMENT
WILL RUSH
R. R. CASES

Department of Justice Has Notice of Filing of Sixteen Suits By the Railroads Attacking Adamson Law.

Will Force an Early Hearing.

(By Associated Press Dispatch.)

Washington, November 16.—Early decision by the Supreme Court of one of the railroad suits attacking constitutionality of the eight-hour law probably will be sought by the Department of Justice.

An appeal probably will be made in the first case decided, in the hope that the Supreme Court may be able to pass judgment as near as possible to January, when the law would become effective if not suspended by injunction.

A decision in the highest court would be binding on all lower federal courts and might dispose of all other suits.

The Department's policy has not been finally settled, but it was said today that this course is being considered and probably would be followed.

If an appeal is taken, the court would be asked to advance the case, and, in view of its importance, officials feel that such a motion would be granted, since such procedure is not unusual.

Official notice of the filing of the sixteen suits had been received today by the Department.

Preparations were being made today for the meeting Monday of the joint Congressional committee to investigate railroad questions including government ownership.

The committee has sent notices to every state governor and attorney general, and all state railroad commissions, to commercial and industrial organizations and to the president of every railroad in the country.

RUSSIAN SHIP

Belated Reports Relate an Explosion Which Cost 150 Lives.

(Associated Press Cable.)

London, November 16.—The Stockholm newspaper, Aften Tidningen, says that some days ago an explosion occurred on board the Russian ammunition steamer Baron Brecki, at the Russian seaport of Archangel, causing the death of 150 persons and the wounding of 650 others, according to a dispatch from the Swedish capital to the Exchange Telegraph Company.

TEDDY'S BIRTHPLACE

(By Associated Press Dispatch.)

New York, November 16.—The old two story house in Twentieth street in which Colonel Theodore Roosevelt was born October 27, 1858, is to be torn down to make room for a modern business place, it was announced today.

FIN MORRIS CASE GOES TO THE JURY THIS AFTERNOON

The case of Ohio against Finley Morris, charged with manslaughter, went to the jury shortly after two o'clock Thursday afternoon, and it was expected that a verdict would be returned within a few hours at the outside.

All of the evidence was in at 3:30 Wednesday afternoon and the jury was dismissed until Thursday morning at nine o'clock. Wednesday evening special charges were argued to the Court, and Thursday morning when court convened, Prosecutor Maddox made the opening argument on behalf of the state, making a careful presentation of the facts in the case. He was followed by Attorney J. D. Post, for the defense, and his argument also was forceful and to the point. Quite a little amusement was created when Mr. Post, holding a little red book in his hand which contained information helpful to the defense, declared that "it is contained in this little red book, and it isn't Harvey's 'little red book' either." Self defense was the basis upon which the defense worked.

The closing argument for the State was made by Attorney John Logan, and teamed with strong points for a conviction.

Judge Carpenter then delivered his charge to the jury. This required some little time, after which the jury withdrew for deliberation.

BELIEVED COUPLE TO BE RUNAWAYS

Two Mt. Sterling men reported to Mayor Oster Thursday morning, that they had hauled a couple of young people into this city from a point several miles east of town, and that upon reaching the outskirts of the city the couple asked to be let out of the machine so they might go around the main part of town to their destination.

The Mt. Sterling men stated that the girl was about 14 years of age and that the youth with her was apparently 21 and that they believed the pair to be runaways who should be given attention.

The police were sent out to investigate.

In Social Circles

The mile stone which marked a half century of happy wedded life was the golden wedding celebrated by Mr. and Mrs. Norman McLean with a six o'clock dinner at their home near town on the Leesburg pike, Wednesday night.

Forty-five relatives, including the twenty-four children and grand children, congratulated Mr. and Mrs. McLean upon the unusual happiness which had crowned their lives and the good health and prosperity which rounded out so many years together. It was an occasion of never to be forgotten pleasure.

Yellow chrysanthemums great, gorgeous blossoms, were singularly appropriate in the decoration, and the table where their golden glow shed added glory, was beautiful.

Caterers Lorean Woodson served an elegant dinner, Edison Music adding to the pleasure of the hour afterwards the guests lingered at the table while Rev. J. F. Henkle eloquently toasted the bride and bridegroom and Mr. E. A. McCoy responded with a pleasing toast to the anniversary.

The bride's maiden name had been Lucinda Garlinger and both bride and bridegroom had been born and bred Fayette Countians. They went to housekeeping on the home farm, where they have since resided. Rev. P. F. Johnson, of the M. P. Church, married them.

The children, who were all present and assisted in the hospitalities of the anniversary, are two daughters, Mrs. John Merriweather and Miss Fannie, and six sons, James, J. Earl, R. J., Walter Howard and Harold.

Mr. and Mrs. McLean received a number of handsome gifts.

Mr. and Mrs. Walter Kitchen, of Springfield, and Mrs. N. S. Henkle, of Muncie, Ind., were guests from a distance.

Misses Mayme and Sarah Allerdise proved delightful hostesses to a dozen girls who gathered at their home, Wednesday night and whose primary plan had been the organization of a club. The organization, however was postponed until a later meeting.

A merry evening was spent and a delicious lunch served.

Miss Fay Jones assisted in entertaining.

An elaborate luncheon, characterized by perfect appointments was given by Mrs. Washington Lough, Wednesday in compliment to the Walla Walla Chapter of the Daughters of the American Revolution of Hillsboro, of which Mrs. Lough is a member.

The Lough home, formerly the old Captain Parrett place just below Good Hope, has recently been remodeled into one of the most beautiful country places in the county.

The home is ideal, colonial in style and spaciousness, with immense verandah and wide center hall upon which opens large rooms. Handsomely furnished, it provided a background especially fitting for the descendants of Revolutionary days—the loyal Daughters.

Mrs. Lough was herself a very charming daughter, as she gave cordial greeting.

The tables were artistically decorated in rose and white chrysanthemums and the same colors prettily introduced throughout the elaborate luncheon courses.

Caterers Taylor, of Greenfield, served. In addition to the thirty Hillsboro daughters who were Mrs. Lough's guests there were Mrs. A. M. Bush, Miss Ida Hays, of this city; Mrs.

John Case and Mrs. Simmons, of Greenfield, all members of the Washington Chapter.

The Sugar Grove W. C. T. U. held an enjoyable session Wednesday afternoon at the home of Mrs. W. C. Eyre on Washington Ave. "Rescue Work" was the topic for the day and was ably handled in four fine papers by Mrs. Pearl Darlington, Mrs. Augusta Haines, Mrs. Theresa Breakfield and Mrs. Sallie Todhunter.

Mrs. Eva McCoy gave the always beautiful recitation "Whistling in Heaven."

Thirteen members and a number of visitors from the Washington Union were present, several of the visitors making brief interesting remarks pertaining to the day's topic.

Victrola music added to the afternoon's program. Fall flowers and potted plants were attractively arranged throughout the rooms.

Mrs. Eyre was assisted in serving delicious refreshments by Mrs. Sallie Todhunter and Mrs. Martha Capps.

The next meeting will be held at the home of Mrs. Theresa Breakfield November 29.

The Thanksgiving meeting of the Missionary Society of the First Presbyterian church was held at the home of Mrs. George Jackson Wednesday afternoon, with the assisting hostesses Mesdames Dennis, Griffiths, Brady, Reid, Patton, J. W. Rothrock, A. R. Stokesbury, Frank Jackson, Ustick, Robinson, Elmer Klever, Gregg, McLellan, Deheart.

Despite the sudden drop in temperature there was a good attendance and the opening of the mite boxes added a good sum to the treasury.

Mrs. J. T. Tuttle presided. Miss Edna Hamm gave a reading both instructive and entertaining. "A Mission School Under a Mulberry Tree." It presented the need of Christian education in darkened Mexico.

Mrs. Frank A. Chaffin contributed a fine paper on "Opening Doors of Latin America," bringing out the immense opportunities awaiting Christian workers.

Afternoon tea was served and the women lingered in social chat.

A MacDowell Musicale will be given Saturday afternoon at 3 o'clock at Conservatory Hall by Aronell Timmons, Rosalee Slagle, Helen Hamm, Mrs. Francis Junk, Mrs. Grace Hyer, Faye Wood, Doris Kelly, Zinna Wilson of Bloomingburg and Juanita Rankin of Xenia, assisted by Master Ralph Lloyd, Misses Louise Fenner, Dorothy Donohue, Lucile Reveal, Donna Barrett, Mary Baughn and Stinson.

The women of the "500" club and their husbands enjoyed a brilliant social session Wednesday evening at the home of Mr. and Mrs. Roy T. McClure. The evening's hostesses with Mrs. McClure were Mesdames Harry Rodecker, Arthur Leland and Warren Hicks.

Six tables of players contested in a merry game, Mr. Walter Ellis winning the trophy.

The home was beautified with great shaggy chrysanthemums in varied hues, and a crystal bud vase, on each table, held yellow button chrysanthemums. The men were presented with boutonniers of the button chrysanthemums.

A delicious collation of two courses was served.

The Leap Year Dance given by the Pythian Sisters at the K. of P. Castle Wednesday evening, proved a delightful affair, with twenty-five couples attending.

Whelpley's orchestra furnished excellent music.

Miss Emma Wilson was chairman of the competent entertaining committee.

Miss Fern Van Kirk, of Springfield, was an out of town guest.

The Rebekah social session last evening was quite enjoyable. Delicious refreshments were served and plans made for a masquerade to be given Wednesday evening, November 22nd.

It is the intention to invite the public to this.

The Aid Society of the Church of Christ held regular meeting at the home of Mrs. Clark Mershon, Wednesday afternoon.

After the business session the members spent the afternoon quilting.

PASSENGERS LEFT

By an oversight on the part of the busy man whose additional duty it is to act as train erier at the Union Station, a large number of persons missed the west bound C. H. & D. train, Wednesday evening which was late, and which the train erier did not announce. As a result many persons were put to a great deal of inconvenience and expense.

PARENTS-TEACHERS HOLD INTERESTING MEETING

Wednesday night's meeting of the Eastside Parents-Teachers' Club proved one of much enjoyment.

The meeting was opened with a few selections from the Graphophone.

In a carefully written paper Miss Ruth Jones had for her subject "Games for Children From Five to Twelve," she brought out the thought of play being the natural activity of the child's life and that play is really the child's world. The games furnish an element of work and all work of the child should have the play element.

The games liked best by the younger child are the sining and imitative ones, while later the child enjoys those of competition and team work. In these games courage and daring are developed.

Mr. J. W. Stewart gave a very interesting paper on "Reading." The methods of teaching reading were emphasized, showing the superiority of the word and sentence method over the alphabet method. The result of teaching boys and girls to enjoy good reading opens up a world full of choice things and has an influence on character building.

After the meeting was closed a social time was enjoyed and informal games were played.

D. T. & I. WRECK IS CLEARED AWAY TODAY

The wreck crew and section crews completed the work of clearing away the D. T. & I. wreck at Fayette junction, three miles west of this city about one o'clock Thursday afternoon, when traffic was restored.

The wreck, caused by a broken journal on a freight car, occurred at an oint where, with little work, the debris was removed from the C. H. & D. tracks which parallel the D. T. & I. at that point, and all D. T. & I. trains were detoured over the C. H. & D. at that point, so that little delay in traffic over the road resulted.

The "Big Hook" of the D. T. & I. worked all night removing the 11 freight cars, chiefly cars, of ore, and the work was completed Thursday fore noon, and the track repairs made shortly after noon.

The cars were not badly damaged considering the nature of the wreck, but considerable track was torn up.

LEWIS STREET IS NEAR COMPLETION

The Lewis street paving job is now nearing completion, and a half day's additional work will see all of the brick in place. Then, if weather conditions are favorable, the grouting will be applied and the street will be ready to throw open to traffic some two weeks later.

Contractors Wilt, Bolan and Kelley who have the work in hand, also are busy on South Fayette street, and have the excavation work finished from the old corporation line to Circle avenue. This is as far as the officials will permit the excavating work to extend this fall.

If the weather is favorable the concrete base will be laid as quickly as possible and the street completed, but owing to the lateness of the season it is expected that there will be considerable delay as result of freezing weather.

30 ATTEND RABBIT DINNER AT THE Y

Thirty Dutch Treaters attended the rabbit dinner at the Y. M. C. A. Thursday noon, and Messrs. Fite and McLean were roundly praised and highly complimented for their liberal supply of rabbit.

Mr. H. G. Coffman, delegated by Mr. Worthington, presided over the session, proving a popular chairman.

Three new members were enrolled and each made the initiatory speech necessary for membership. They were Rev. A. P. Cherrington, Dr. H. B. Shaddock and a Mr. Eagle.

DR. SHADDOCK WILL BE BUSY MAN SUNDAY

Dr. B. H. Shaddock, advance man of the Dr. Henry W. Bromley Evangelistic Party, is always busy, but he will be three-fold busy Sunday when he delivers three sermons.

The first will be delivered at the M. E. Church, Bloomingburg, Sunday morning, when he addresses a union meeting of the churches there.

In the afternoon he speaks at Union Chapel, Yatesvilles, and at night will address a union meeting at Grace M. E. Church.

The Adamson Law Again

The reappearance of the menace of a general strike of the railroad employees throughout the country so soon after the enactment of the Adamson eight-hour day law, comes as a surprise to a great many people.

The present agitation is only one more—very forceful it is true—illustration of that great truth which should be known to all yet is realized by so few people—it is one thing to enact a law but an entire different and another task to enforce it.

So many people are inclined to lose sight of the main fact that evils are but partially corrected when remedial legislation is enacted that it is not remarkable so much surprise exists at this latest turn of the disagreement between railroad managers and employees.

The Adamson law is incorporated into the statutes of the United States but the railroad companies are announcing that they will refuse to obey it until after its validity has been settled in the courts of last resort.

At the time the Adamson law was passed by congress it will be remembered President Wilson had already submitted to Congress, for adoption, an elaborate program of legislation, the enforcement of which after its enactment would likely, have prevented the present difficulty and would have in the opinion of the executive, prevented a recurrence of conditions which made the surrender of government officials to the brotherhoods, advisable.

Unless early after Congress convenes in December that legislative program is resubmitted, amended and amplified wherever necessary, and conditions righted from the bottom up President Wilson's supporters and admirers will be disappointed.

The nation should take steps at the earliest possible instance to protect the people from the consequences of a quarrel between railroad managers and employees.

The Cold Wave

The cold wave arrived in the Ohio Valley section on schedule time and found the people not extending a very cordial welcome.

The sudden drop of the mercury in the thermometer tubes sent the first real chill of the fall coursing through the veins of mortals.

After so much delightful warm weather the extraordinary drop was unusually severe.

Despite the warnings of the weather bureau officials many were unprepared with coal and building. The bitter wind which blew out of the northwest found many open places in houses and barns through which it forced its way to carry discomfort to man and live stock.

Hundreds of coal bins in the cities and towns were either entirely empty or only contained a scant supply of coal and in the rural sections many wood piles were again resorted to and many arms the muscles and joints of which had grown unaccustomed to the exercise required in swinging an ax, were compelled to "go in to action" in the work of, preparing fuel for the fire.

Promises of an abatement in severity of the cold wave are hailed with delight and the chances are that, given another opportunity, men will not be misled by the prolonged adieus of that charming season Indian Summer.

When the weather bureau promises another cold wave it is not likely that men will receive it as did those in the old third reader lesson who turned a deaf ear to the cry of "Wolf."

A Tremendous Duty

By far the most important problem which the national and state administrations face is the high cost of living.

There is no doubt that the European War and the cutting off of imports has served to make a few semi-necessities scarce—some drugs and chemicals practically unobtainable and with the limited quantity available, those few articles have been subjected to a phenomenal advance in price.

But those comparatively few articles are well known and the reason for their advance in price is not difficult to understand, explain and excuse.

It is equally well known that the shortage occasioned by the war has been seized upon by speculators and big dealers as an excuse too boost the price of everything else.

If it was not so tragic in its effect the excuse which the speculators offer for their advance in prices would be ridiculous.

The increase demand in the home market on account of prosperity of the people is, perhaps, cause sufficient for the some advance in prices but prosperity will not account for the unprecedented rise in cost of all necessities of life—neither will the war.

That there are subtle but powerful influences back of the raise in prices now seems certain and it is the duty of the government to lay hold of conditions and right them at least so far as necessities of life are concerned.

It is not an easy task but it is an important one.

THE TERRIBLE TURKS

(By American Press)

Berlin, Nov. 16.—A correspondent who returned from Constantinople recently reports that Turkey has a new army of 800,000 men, fully equipped and drilled. These large fresh forces have been trained by German officers during the last seven months and will be used to reinforce the Bulgarians in Macedonia and the Dobruja, and the Germans and Austro-Hungarians in Galicia and Volhynia. According to reports from Vienna, the Turks are to replace the Austrian troops on the eastern front to enable the dual monarchy to start a new and decisive offensive against Italy, which is to be crushed under all circumstances before peace negotiations are started.

WHOLESALE ARRESTS ARE LOOKED FOR

(By American Press)

Chicago, Nov. 16.—Wholesale arrests of prominent business men and officials of Gary, Ind., on fraud charges growing out of the election of last week must be made within twenty-four hours, it was said at the federal building here. The resulting scandal, it was said, would prove more startling than the Terre Haute fraud cases. Only the "higher ups" will be taken in the raid, which will be made by federal officers from Indianapolis, it was said.

TO HELP CITIES

(By American Press)

Columbus, Nov. 16.—After lively debate three recommendations for the financial relief of debt burdened cities were adopted at the meeting of representatives of chambers of commerce, the League of Ohio municipalities and the Ohio State grange. One of the recommendations would restrict the bond issuing power of councils. The second proposition is designed for the relief of the larger cities. The third recommendation was for the relief of smaller cities, where the trouble hinges wholly on the 10 mill levy.

FLOAT BIG FREIGHTER

(By American Press)

San Diego, Cal., Nov. 16.—That the former German freighter Sesostros, ashore at Ocos, Guatemala, for thirteen years, has been successfully floated is the news received from Captain R. Ridley, master of the British Columbia salvage tug Pilot. Three hydraulic pumps and 150 natives were used to remove the great banks of sand from around the giant freighter, which is said to be as seaworthy as upon the day she went ashore.

WHEN WILD PIGEONS ABOUNDED IN OHIO

Several authentic stories touching the enormous numbers of wild pigeons in this vicinity, about the middle of the last century, have been printed. The testimony of the late Dr. J. M. Wheaton of Columbus, with whom many now living here were acquainted, taken from an official report that he made, is one of the most interesting that has yet been met. He says in part:

"Until about 1855 pigeons were extremely abundant in central Ohio, having at and before the time a roost in Licking county near Kircersville. Then for weeks at a time they might be observed flying over this city or around its suburbs. In the morning soon after sunrise until 9 o'clock or after their flight was westward from the roost. In the afternoon from 4 o'clock until sundown they were returning. During these periods they were never out of sight and often dozens of flocks were in view at once. * * * Vast numbers were shot or killed with poles on their roosts or taken with nets.

"Many thousands were offered for sale in this city. Most of them were bought alive in coops and the purchaser had the option of carrying them home alive or having them killed on the spot. If he choose the latter, the seller by a dextrous movement fractured or dislocated the bird's neck between his teeth. The average price at this time was about 5 to 6 cents a dozen.

"On several occasions we have been favored by a general migration of these birds, when they have appeared in congested millions. This was the case in 1854, when the light of the sun was perceptibly obscured by the immense and apparently unbroken flock which passed over the city. In the fall of 1859 witnessed a similar migration near Granville, since which time the birds have been much less numerous. On this occasion I had the opportunity to observe a flock while feeding."

He says that the birds would thickly cover the ground for many acres. Those in the rear, finding all the food picked up by those before, would fly over the other to the front, and there was a continual movement of this kind from rear to front and the vast flock moved along like a huge cylinder.—J. H. Galbraith.

NEW AUTOMATIC DEVICE TO SAVE VALUABLE TIME

**New Instantaneous Connections
Between Automatic Exchange
of This City and Subsidiary
Exchanges Will Be Ready Next
Month—Stringing Wire Begins
Today.**

Equipment for installing the new automatic toll calling device so that one may call automatically the exchanges of New Holland, Bloomingburg, and Jeffersonville without the necessity of calling for the county operator; and so the operator of the branch exchanges may call any number in the Washington exchange without the necessity of calling an operator, is now ready to be installed, and within the next few weeks will be in use in this city and the branch exchanges of the Automatic, or Ohio State Telephone Company.

By installation of the device a great deal of valuable time will be saved to subscribers by eliminating the necessity of calling the county operator, and less work will be required at the various exchanges. When a party from Bloomingburg, Jeffersonville or New Holland desires to call a party in the Washington exchange he will call the operator of his home exchange and she will immediately call the party by the automatic ringing device, and the connection will be made in less than half the usual time.

Sometime next month the additional trunk lines to Jeffersonville will be completed, and it will not be necessary to wait a half hour until the line is free.

The work of stringing new wires for the additional service being installed, started Thursday morning, and, according to Manager Orr, about 100 miles of new wire will be added.

It will be several weeks before the new work is completed, and the cost is approximately \$35,000.

DEATH SUMMONS MRS. SARAH WYATT

Following a stroke of paralysis on Monday Mrs. Sarah Wyatt, wife of Mr. J. P. Wyatt, passed quietly away at 10:45 Wednesday morning at her home on S. North street.

Mrs. Wyatt was one of the older residents of this city and had rounded out seventy four years in the highest esteem and affection of all who knew her. Coming to this city from the home of her birth, Zanesville, when a young woman of perhaps 18 years of age, Mrs. Wyatt spent the remainder of her life here. Always a deeply religious woman it was her greatest pleasure to help the poor and sick. Quiet and unobtrusive in manner she never spared herself in service for others and few women leave a record of greater usefulness.

The sorrow which follows her death is by no means confined to her husband and two sons, Edward and Harry, although their deep loss arouses the sympathy of many friends.

The funeral will be held Saturday morning at ten o'clock at the residence. Burial will be made in the Washington cemetery.

NOT SO COLD!

Those who believed Thursday morning to be colder than Wednesday were agreeably surprised to find that the mercury did not reach below 13 degrees above zero.

From two o'clock Wednesday afternoon until nearly midnight the mercury hung around 25 degrees, and then dropped a few degrees until about seven o'clock Thursday morning when it made a sharp upward turn once more.

By Associated Press Dispatch.
Columbus, O., November 16.—Plans are about completed for a lime kiln to be erected by the city of Columbus and they will be submitted to council in the near future. It is estimated that the plant will cost about \$30,000 but according to figures produced by water-works officials, it will save the city about \$12,000 a year in the cost of lime.

The plant is to be used in connection with the filtration plant of the city water works. While lime is used in the process of treating water, it is said that about four times as much lime is taken from the water in the final filter as is used in the filtering process. It is in this connection that the new kiln will be used, it being utilized for refining the settlings for re-use by the filtration department and for the market. Besides saving the city about \$12,000 a month for lime it is expected that a considerable revenue will be derived from the production over the amount needed for the water works. The work on the plant cannot be started before next spring, but if the council acts favorably upon the matter it is expected that the kiln will be in operation some time during next summer.

AUTOMOBILE DEALERS TO HOLD BIG MEETING

By Associated Press Dispatch.
Cleveland, O., November 16.—The greatest gathering of automobile dealers ever held in Ohio is to be held in Cleveland during the week of the annual automobile show, December 30 to January 6, if plans of local promoters materialize.

There are approximately 3,000 automobile dealers in the state of Ohio, according to official registration. This is an increase of about 50 per cent over last year. All of these men will receive special invitations to attend the meeting and it is expected that each will bring at least one assistant or salesman, which promises an attendance of at least 6,000 at the meeting. Special events are being arranged for the dealers' entertainment.

NEW INSTRUCTOR IN MILITARY SCIENCE

By Associated Press Dispatch.
Columbus, O., November 16.—Captain J. D. Tiltford, a graduate of Princeton and an instructor in military science in several other universities, has been detailed as instructor in military science and tactics at Ohio State University to fill the vacancy caused by the recall of Major Alfred T. Smith.

Captain Tiltford, a member of the Third Cavalry, U. S. A., is a graduate of the army school of the line at Fort Leavenworth, Kansas, and had fourteen years experience in the cavalry. His father was a colonel in the regular army.

AUTOS FREEZE UP

A large number of automobiles, some in garages in the city, "froze up" Wednesday, and it required considerable work to thaw out the machines.

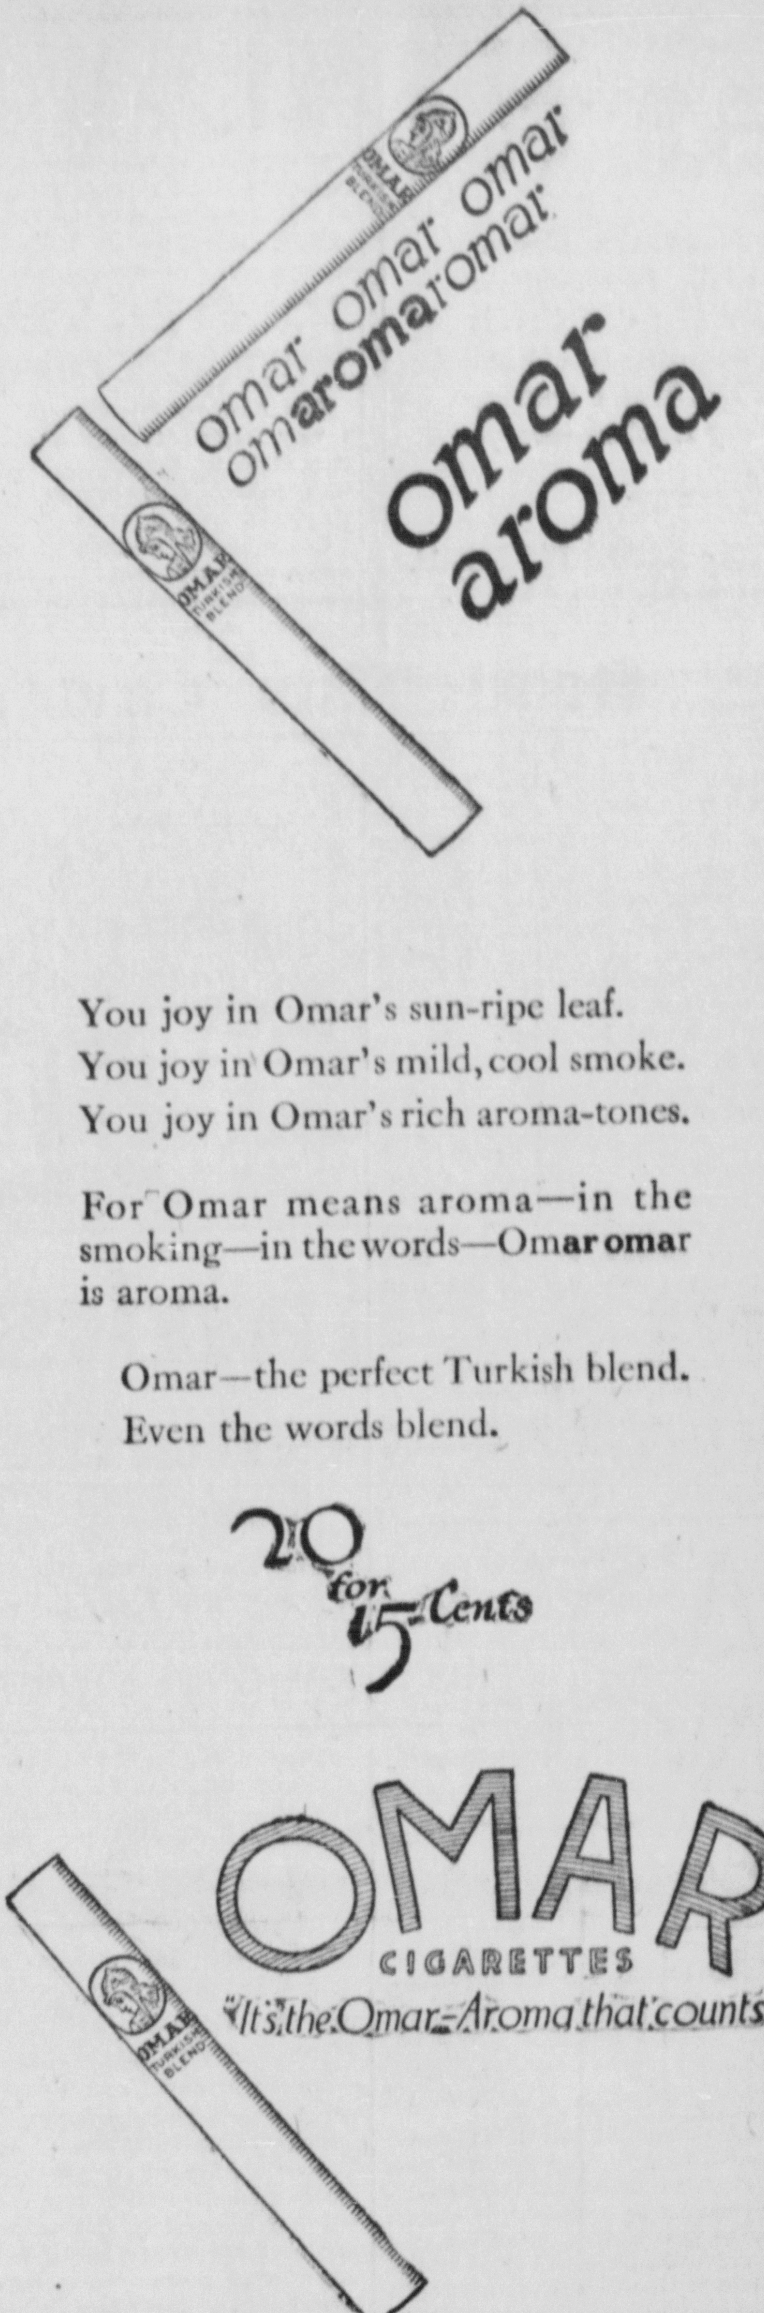

As a result of the cold weather there has been a general rush to the drug stores for alcohol to mix with the water in the radiators.

"Only 'Gets-It' for Me After This!"

It "Gets" Every Corn Every Time. Painless. Nothing More Simple. "I'll tell you what, I've quit using toe-eating knives for corns. I've quit making a package out of my toes with bandages and contraptions—cutting, digging with knives and scissors. Give me 'GETS-IT' every time!"

That's what they all say the very first time they use "GETS-IT." It's because "GETS-IT" is so simple and easy to use—put it on in a few seconds—because there is no work or corn-digging to do. It gets your corns off your foot. All the time it's working—and then, that little old corn peels right off, leaving the clear, corn-free skin underneath—and your corn is gone! No wonder millions prefer "GETS-IT." Try it tonight. "GETS-IT" is sold and recommended by druggists everywhere. 25c a bottle, or a set on receipt of price by E. Lawrence & Co., Chicago, Ill. Sold in Washington C. H., and recommended as the worlds best corn remedy by Brown's Drug Store and Blackmer & Tanquary's Drug Store.

CONVICTS MAY GO TO FRONT

(Associated Press Cable.)
Paris, November 15.—The protection from German shells enjoyed by convicts through their own misdeeds, while the law-abiding men of France able to bear arms are making such heavy sacrifices, has raised a discussion as to the propriety of sending to the front of all able-bodied men now in prison.

"Jail-bird slackers" is the name given to men sentenced in 1914 or previously to periods of confinement that have carried them over the first two years of the war. A law recently introduced in the Chamber of Deputies by Pierre Ramel and Andre Hesse contemplates the incorporation of certain categories of these men. The proposition was received with considerable satisfaction until a study of the question developed forcible objections. A great many people

held that it would be according too much honor to allow convicts to fight at the front alongside the gallant soldiers of the republic. Others held that the results would scarcely justify the experiment, while the number of recruits that could be obtained this way estimated at the Ministry of Justice between 3,000 and 4,000, would furnish too small an effort to justify the risk. It would be necessary to provide an organization absolutely separate and distinct from any other arm of the service to prevent contact between convicts and the soldiers of the regular army.

A great many prisoners have begged for the privilege of a suspension of their sentence to permit them to go to the front, and have thus appealed with some force to the sentiment of charitably minded people. There are precedents, however, showing that the men who have gone to the front to clear themselves of stains upon their record have not in every case justified the hope that was entertained.

MADE MEMBER OF ADVISORY BOARD

Miss Margaret Johnson, daughter of County Recorder Charles M. Johnson, who is a freshman at the Ohio University, Athens, has the honor of representing the department of oratory on the Advisory Board of the women's league, which has a representative from every department and organization of the university.

This Advisory Board recently held a very important meeting at which were discussed several vital questions with reference to college women's standards.

One was the attitude of men towards girls with regard to dates, ie, considering it a favor to the girl when it should be just the reverse.

Week night dates were also considered a pernicious evil as well as incessant attendance at moving picture shows.

It was regretted that many girls go every night of the week, wasting both shekels and valuable time. A college girl cannot do this and get the proper respect she should have.

FLOUR MORE THAN DOUBLE IN PRICE

While looking through some papers Wednesday afternoon Mr. J. Earl McLean, manager of The Washington Milling Company, discovered the wholesale quotation of Monitor flour just ten years ago to the day, and comparison with the present wholesale quotation shows that the price now is \$5.40 higher per barrel than ten years ago.

Wheat at that time was about 70c per bushel, while today the farmers are being paid \$1.77 per bushel for all of the wheat they can bring in.

WILL EXPOSE "THOSE HUSBANDS OF OURS"

The committee in charge of arrangements for the Farmers' Institute to be held at Good Hope January 6th and 7th is arranging for a play to be given at Wayne Hall on the night of December 9th in order to obtain funds to meet the expenses of the institute.

The play will be "Those Husbands of Ours," and every husband in the Good Hope vicinity will be there, along with the women and children.

EGGS

Already eggs are selling at 60c to 75c a dozen in the cities. Some are predicting \$1.00 eggs before spring. Do you desire to get your share of these big profits? If so, make your hens lay by using the wonderful preparation "Prescription No. 4." It will fill your egg basket.

Why feed hens all winter and get only a few eggs? By its use a hen may be made to lay her entire life crop of eggs in one or two years. The normal time is five years. Absolutely harmless.

Saves Feed. If directions are followed, it saves all the cost of oyster shell, all the cost of beef scrap, and all the cost of charcoal. It contains no pepper, mustard, waste, or other injurious substances.

Insures easy, early and quick moult. It prevents and cures the egg-eating habit. Five pounds of Prescription No. 4 contains more egg-making material than a ton of oyster shells and 25 pounds of beef scrap combined.

Try it four months, and you will get more eggs than you ever have before in the same length of time and season of the year.

Columbus, Ohio.

It is a wonderful egg producer and feed saver as well. Many of our hens lay right through the moult last year, thanks to your Prescription No. 4. We have a capacity for 20,000 layers and intend to use it throughout our plant.

HARTMAN THEATER (COLUMBUS)

Monday, Tuesday and Wednesday, November 20, 21, and 22—Matinee Wednesday.

"POM-POM."

"Pom-Pom," brought life and color mirth and a sheaf of such intoxicating tunes to New York last winter where it was the hit of Broadway until the July sun made the theater insufferable, but the biggest thing it brought was the tiny little Miti Majos, the most twinkling little star that has flittered in musical comedy for many a day. She comes to the Hartman theater, Columbus, for three nights and a Wednesday matinee, beginning Monday night, November 20.

There are plenty of fun-makers and music makers to aid her, notably Tom McNaughton in the role of the disconsolate "cooper;" Tom Walsh as the king of crooks, and Carl Cantvoort, the erratic baritone as an inspector of police.

There are also some fresh young

voices and personalities, in addition to a singing chorus of unusual charm.

But first and last it is Miti that lures and captivates, and with her in her role of "the dashing, daring desperado, Pom-Pom," will be the hearts of her audiences. Mail orders for this engagement are being received now at the Hartman Theater, Columbus, and will be filled and returned promptly in order of their receipt when accompanied by a stamped, self-addressed envelope and remittance. As the demand for seats for this engagement is certain to be unusually large, seats should be secured as early as possible.

Thursday, Friday and Saturday, November 23, 24 and 25.
"FAIR AND WARNER."

The New York company, with Madge Kennedy as the feature player, will present Avery Hopwood's famous farce "Fair and Warner" at the Hartman Theater for three nights beginning Thursday evening, November 23. "Fair and Warner" was one of the really tremendous hits of the last season in New York, and enjoyed a solid year's patronage at the Eltinge and Harris theaters, being hailed as

the funniest light play of a decade.

Selwyn and company are the producers of "Fair and Warner" and they will send to Columbus direct from its year's run at the Harris Theater, a splendid cast of players to present the farce. In addition to Miss Kennedy the company includes John Arthur, Ethel Wilson, Robert Ober, Arthur Stanford, Jane Seymour, John Morris and Harry Loraine.

Mail orders for this engagement also are being received now at the Hartman.

NO GREAT CELEBRATION OF NEW YEAR'S EVE

By Associated Press Dispatch.
Cleveland, O., November 15.—New Year's Eve falls on Sunday this year and plans for the celebration of the passing of the old year are already receiving attention here. There are several strict laws that will prevent the customary celebration of the passing year in down-town cafes and hotels on a Sunday night and so hotel and cafe owners have decided that New Year's Eve will be celebrated on

the preceding night this year.

It does not matter that the year will not die until twenty-four hours after the hotel-cafe year is declared ended. The celebration is to be had and those responsible for the moving up of the occasion assert that there will be no diminution in the joy of the occasion, despite the fact that the clock and the calendar do not agree with the merry-makers as to the proper time for the celebration.

Always use the best; that's Red Cross Ball Blue. All leading grocers sell it, 5 cents.

GLORIA'S ROMANCE

Of Mr. and Mrs. Rupert Hughes

Novelized from the Motion Picture Play of the same name by George Kleine.

Copyright, 1916, by Adelaide M. Hughes

Continued From Yesterday's Herald

SYNOPSIS.

Pierpont Stafford, with his daughter Gloria, is wintering at Palm Beach. Gloria is a vivacious but willful young lady who chafes under the restraining hand of a governess from whom she repeatedly escapes. Her childish capers cause young Doctor Royce to fall in love with her. Becoming lost in the everglades she falls into the hands of the Seminole Indians. Gloria falls in love with her rescuer, Freneau. Five years later she leaves school and meets Freneau at the theater; he has forgotten Gloria. Later Freneau persuades her to forgive him. Gloria's sister-in-law, Lola, becomes intensely jealous and Doctor Royce discovers in her an ally. Freneau takes leave of Gloria. She sees from her window an attack made upon him. Doctor Royce convinces her it is a delirium. A telegram followed by a letter, comes from Freneau. She replies but her telegram is returned. She accidentally sees the supposed suicide of Freneau reported in the paper. Gloria swears to find the murderer of her lover. Royce tells what he knows of Freneau to Mr. Stafford. They seek to prevent scandal from enveloping Gloria. She accuses them of conspiracy against her. Gloria sets about to run down Freneau's murderer. Royce warns Mulry to tell Gloria she goes to David's country home. She sees Lola who is also worried. Gloria's suspicions are aroused. Royce endeavors to show her the difficulty she faces. Gloria goes to David's country home. She meets Mulry who flees at once. Gloria insists on going to Palm Beach. Again she sees Mulry there. He leaves for the North. She is recognized by her captor, the young Indian chief. He tells her that Royce and not Freneau was the reactor at that time. Gloria attends night court; she sees Mulry there, also the tramp who attacked Freneau. But Judge Freeman releases him. She follows the tramp when he leaves the court and falls into the hands of hold-up men. She finds herself in a low saloon dance hall, and is selected by one of the patrons as his partner. Doctor Royce, however, follows her, and when he attempts a rescue, calls raised and the crowd, including Gloria and Royce, are arrested and taken before Judge Freeman. The newspapers feature Gloria's arrest. Reporters surround the house. Castmire arrives with the child Gloria promised to adopt. She orders Royce to take Castmire's wife to the Staffords. She follows Trask and lands on a houseboat to hear him accuse her of Freneau's murder. She confronts him; he impudently her, but she flees him up and escapes. By many stages she arrives at the man pursue the yacht Gloria and the men pursue the barge. Trask fires on them as they near him.

SEVENTEENTH EPISODE

The Tell-Tale Envelope.

Shots that are fired from guns do not often hit the people they are fired at. The coolest target puncturer grows excited when his target is a man, and more excited when it is a woman. Gideon Trask was not an expert with the rifle. He had been crazy enough to take the life of Dick Freneau—to wring it out of him with his hands. He thought he had escaped detection until, with an appalling abruptness, Gloria Stafford—though he did not know

held that it would be according too much honor to allow convicts to fight at the front alongside the gallant soldiers of the republic. Others held that the results would scarcely justify the experiment, while the number of recruits that could be obtained this way estimated at the Ministry of Justice between 3,000 and 4,000, would furnish too small an effort to justify the risk. It would be necessary to provide an organization absolutely separate and distinct from any other arm of the service to prevent contact between convicts and the soldiers of the regular army.

He leaped aboard the canal barge before the deckhands could make it fast. He sprang at Trask and seized the rifle he held. He twisted it out of Trask's hands before he could fire a second shot.
